

**XCAP CONCRETE BLOCKS** automatically interlock concrete blocks for the design of boxes, straight walls, T and L walls and any other shape.

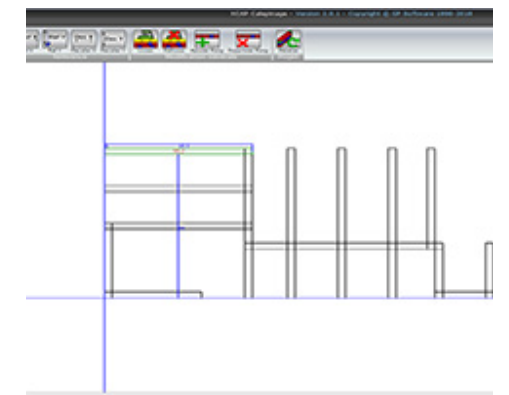

## QUICK IMPLEMENTATION

With XCAP CONCRETE BLOCKS, be faster and more precise in your wall designs. In a few clicks, **automatically generate a nesting of your walls**, with or without boxes, and obtain in your CAD software a precise drawing with the blocks used and the associated quantities.

## SIMPLE USE

No extra features, no useless options, XCAP CONCRETE BLOCKS goes to the essential. Thanks to its **interface designed** for building professionals, all the tools you need are accessible in one click. **Be operational** in only a few hours of training.

**XCAP CONCRETE BLOCKS**

Nesting solution

automatic concrete blocks

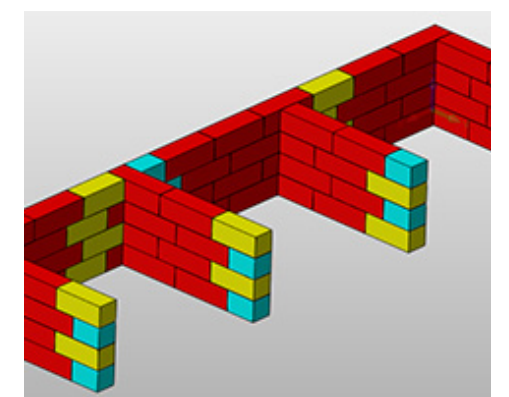

## MAXIMUM EFFICIENCY

**XCAP CONCRETE BLOCKS** goal is to make you more efficient with fast nesting and precise block quantities. We work every day with specialists to improve the solution and allow you to be always **more efficient**, all for a **reasonable cost**.

## COMPATIBLE WITH ALL CAO 3D

You already have a design software? Thanks to the export of the nesting result in STEP format, **XCAP CONCRETE BLOCKS** is **compatible** with all known 3D CAD software without any additional cost. If you don't have a CAD software, we propose you ZW3D in its Lite version.
